SOFTWARE ENGINEERING REPORT 2

December 4, 2017

Ama Katseena Yawson

Fakrul Islam Tushar

Md. Kamrul Hasan

Lavsen Dahal

University of Bourgogne

1   Completed Work

As we are not familiar with most of the aspects of the project, we are understanding various libraries used in the project and trying to implement simple programs to understand it further.

2   Current Work

We are familiarizing ourselves with the PCL and OpenCV Library and visualizing the data with VTK.

3   This Week Work

We are familiarizing ourselves with the following topics as per the division among our group members.

Ama Katseena Yawson
Working on PCL libraries and implementing simple programs.

Fakrul Islam Tushar
Looking at the GUI of the project and the improvement that can be done.

Md. Kamrul Hasan
Understanding ICP and implementing for 3d data.

Lavsen Dahal
Changes that can be brought by using Opencv for preprocessing.
