SOFTWARE ENGINEERING REPORT 1

November 26, 2017

Ama Katseena Yawson

Fakrul Islam Tushar

Md. Kamrul Hasan

Lavsen Dahal

University of Bourgogne

1 Completed Work

The following software required for running the project were installed :

- Visual Studio CPP Tools
- QT Compiled with MSCV 2015
- Cmake
- PCL 1.8.0
- VTK 7.0.0
- Kinect SDK
- IntelReal Sense SDK

A github account repository is made and slack group for communication. Github link https://github.com/Amayawson/C-Project.git

2 Current Work

We are currently reading the last year projects and familiarizing ourselves with the PCL Library.

3 This Week Work

We will install OpenCV library and get familiarize with opencv templates. There are still issues in running some of the projects. We will work on solving it.
